

SMC: Company Introduction

Specialist Marine Consultants Ltd., 2022

Who We Are

SMC are an experienced supplier of specialist services to the marine and offshore energy sectors. We have a comprehensive track-record in delivering HIGH-QUALITY, SAFE solutions, focused on the needs of our Clients.

Formed in 2006, Specialist Marine Consultants has fifteen years of experience in the Offshore Renewable Energy, Oil & Gas, Marine and Utilities industries. From the outset, SMC has been involved in Vessel Inspections, Marine Coordination and HSEQ across these sectors, globally. Since then, SMC has become a market leader in supplying SPECIALIST turnkey services and EXPERIENCED personnel to the energy and marine sector across over 100 offshore projects.

Our wealth of practical experience gives our clients insights and skills that result in strong safety practices; a lower rate of incidents and COST-EFFICIENT projects.

At SMC we believe in offering our Clients a superior service. In order to maintain this standard, we undergo a cycle of continuous improvement via feedback and implementation. HONESTY and INTEGRITY are paramount to our business. We gain Clients' TRUST by being clear in the way we do business and taking responsibility for our actions. We believe we are able to use all our experience and knowledge of the industry to help our Clients on a project-by-project basis and therefore provide them with the best possible service, TAILORED to their precise needs.

What Guides Us

THE SMC ETHOS

SMC pulls together recognized experts across an extensive range of disciplines to provide expert consultancy and turnkey practical services to a diverse range of stakeholder groups.

Our **HIGH-QUALITY** solutions are delivered with a fervent commitment to **SAFETY** as we look to establish and maintain strong, long-term relationships with our clients.

Mission

To exceed our clients expectations by using our values and our expertise to deliver the right solution to any project in the safest possible way.

Values

Safety is paramount in everything SMC does. It will never be compromised and will always come first.

Vision

To become a global leader in offshore services provision by understanding and adapting to an ever changing industry.

SMC Back Office Team

Specialist Marine Consultants Ltd.

Pillars of Service

SMC Clients

Operating Sustainably

Carbon Capture

SMC maintain 12-acres of grassland at our HQ, planting 50 trees per year and cultivating the land in line with Natural England and DEFRA guidelines.

18,500kg of carbon stored per year

Renewable Electricity

100% of our office electricity is sourced from renewable energy.

100% Renewable Energy

Key Targets & KPIs

SMC set targets and KPIs against environmental goals such as; transitioning to electric/hybrid company vehicles, recycling procedures and quantifiable tracing, reduced travel and consumables usage, etc., all with a view to becoming carbon neutral by 2025.

Carbon Neutral by 2025

SMC Marine Services

Marine Consultancy | Marine Coordination | Vessel Inspection

Marine Consultancy

SMC's Marine Consultancy services span work areas such as; HSE / CDM / Transport and Installation / Ports & Logistics / Quayside Facilities / Vessel Operations & Markets / Vessel Newbuild / Emerging Markets / Deep Water Challenges / and more...

Our experienced Marine Consultants support clients by providing a range of bespoke consultancy services, including, but not limited to:

- Due Diligence Assessments
- Market Reports
- Feasibility / Suitability Studies
- Vessel Procurement / Charter / Contracting Support
- Vessel Newbuild Consultancy
- HSE Review & Guidance
- Marine Operations Consultancy (*Design / Assessment / Review*)
- Drills & Training

SMC are a major provider of practical offshore support services, allowing our contingent of dedicated consultants to maintain a current and comprehensive exposure to offshore operations, including a working knowledge of what has worked, what hasn't worked, and insight into the latest innovations.

SMC Marine Services

Marine Consultancy | Marine Coordination | Vessel Inspection

Marine Coordination

SMC are the leading provider of Marine Coordination solutions globally, having delivered over 60 successful Marine Coordination packages of work to date.

We have significant experience in delivering Marine Coordination from all forms of operating base, including onshore quayside locations, offshore vessel-based locations (*e.g.*, SOV), and from remote-based Marine Coordination Centres.

SMC can be called upon to supply turnkey marine coordination solutions, inclusive of:

- Project Management and Marine Procedures
- Marine Coordination Personnel (inc. Marine Coordinators and Permit Coordinators)
- Marine Coordination Support Software
- Marine Communications Infrastructure
- Marine Coordination Centre (inc. facility management and fitting)

SMC deliver proven quality and consistency of service. By operating the world's largest contingent of Marine Coordination personnel, we offer unrivalled levels of availability and experience.

SMC Marine Services

Marine Consultancy | Marine Coordination | Vessel Inspection

ATLAS™ Marine Coordination Software

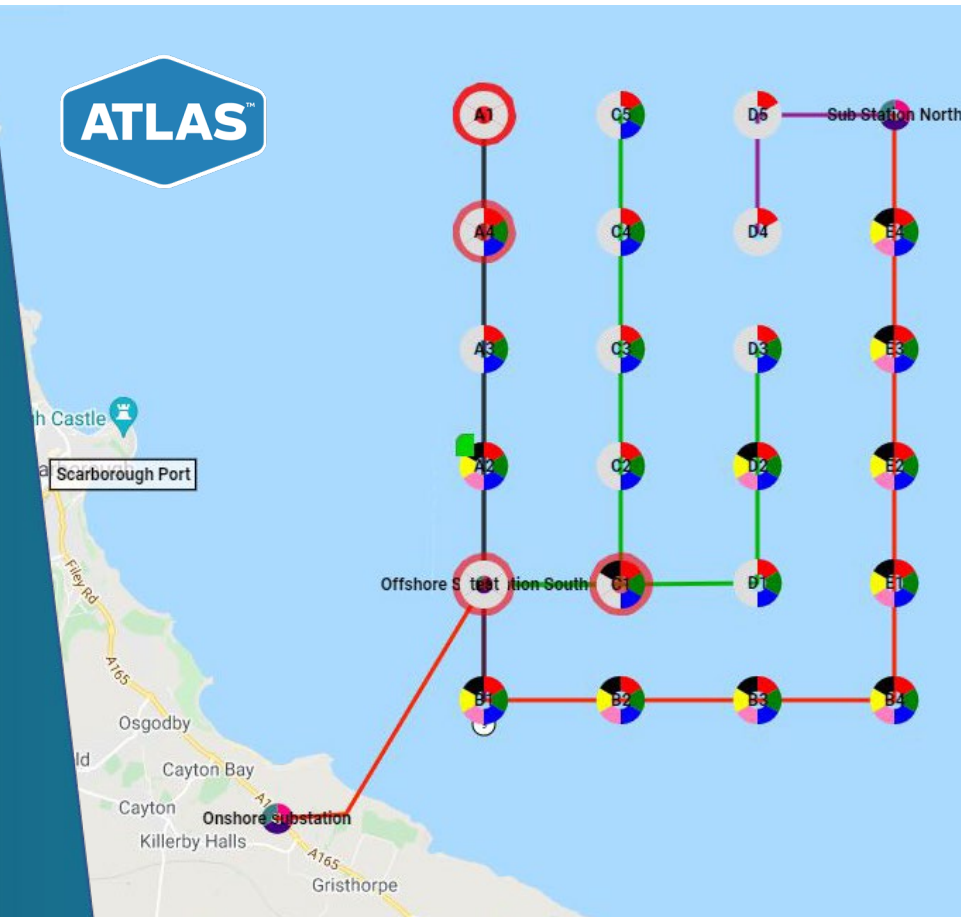

SMC are software agnostic and have direct experience in utilizing a range of industry standard marine coordination software. We work with Clients to determine the most appropriate solution for their projects, based on their needs and our experiences.

Additionally, SMC have developed a proprietary Marine Coordination software, ATLAS™.

ATLAS™ has been developed by Marine Coordinators, for Marine Coordinators, and boast a list of clients that includes offshore wind developers, OEMs, and EPCIs.

The solution is a web-based platform with built-in offline functionality, supporting SMC Marine Coordination operations as we operate across a range of service delivery models, inclusive of offshore, onshore and remote Marine Coordination Centres (MCC).

Please contact us for a remote demonstration to find out more...

SMC Marine Services

Marine Consultancy | Marine Coordination | Vessel Inspection

Vessel Inspection

Completing around 250 Vessel Inspections per year, SMC are a market leading provider of the service to the offshore sector.

We offer worldwide Vessel Inspection solutions to clients, operating a comprehensive pool of Accredited Vessel Inspectors (AVIs) located at strategic locations across the globe.

Our range of inspection services includes, but is not limited to:

- IMCA eCMID (Electronic Common Marine Inspection Document)
- IMCA eMISW (Marine Inspection of Small Workboats)
- In-Survey / On-Hire Survey (tailored to Client requirements)
- Back-Office and/or Remote Audit
- Vessel Operator Assessments
- Vessel Suitability Survey
- Pre-Hire / Pre-Purchase Inspection
- Post-Incident 3rd Party Inspection / Reporting

We have wide-ranging experience in developing inspection templates and configuring online inspection tools to suit the needs of clients.

- QA Walkdowns
- and more...

SMC Construction & Maintenance Services

Statutory Inspection | Balance of Plant Services | Construction Services

Construction Services

SMC support offshore operations by providing offshore construction support services. We support operations from both onshore and offshore locations, taking care of work scopes including, but not limited to:

- Loadout Coordination
- HSE Management and Implementation
- Pre-Assembly Support
- Quality Assurance Services
- Temporary Staffing Resources
- Consultancy and Marine Services (inc. Marine Coordination)
- Installation and Commissioning Services
- Inspection and Maintenance Services
- Quayside Services (inc. PPE Management / Plant Hire / etc.)
- Onshore Site Establishment
- and more...

SMC Recruitment Services

Temporary Staff | Long-Term Appointments

Recruitment Services

SMC have supported clients with the provision of temporary and permanent staff resources since our inception in 2006. Both White-Collar and Blue-Collar personnel resources can be supplied for Renewable Energy, Marine, and/or Oil & Gas operations.

Our service offering reaches far beyond that of a rudimentary recruitment agency as we maintain a comprehensive in-house team of offshore consultants who have direct and current experience of working in a practical offshore environment. Our team is here to support both our clients and our people, ensuring the highest standards of service are delivered.

Our wider company experience in supplying turnkey packages of work gives us a clear and informed understanding of work scopes and the skill sets that are required of personnel, and we maintain a keen awareness of the best people working in the market today. It is our holistic knowledge of the market that feeds into our selection of candidates, enabling us to propose the most appropriate solutions to our clients from our extensive databases.

The Queen's Award for Enterprise 2018

International Trade

Queen's Award for Enterprise: International Trade 2018

SMC are the proud recipients of The Queen's Award for Enterprise, the highest official UK awards for British businesses.

The award was presented to SMC for outstanding achievement in international trade, considering both historical performance in trade globally, as well as the strong ethics and fervent commitments to health, safety and the environment that the company is able to demonstrate.

SMC's pioneering work in emerging markets was also commended – work that will prove significant as the sector grows ever stronger worldwide.
